

The Pulsar® IV System

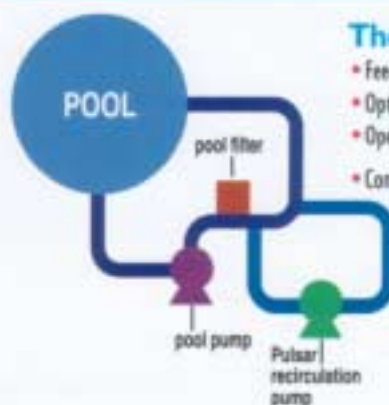

Big Benefits For Big Pools

- For 250,000 gallon and larger pools
- Improved Water Clarity, Color & Sparkle
- Simplifies Maintaining Water Balance
- Safer Than Liquid or Gas Chlorine
- Easy To Operate and Maintain
- Reduces Pool and Equipment Damage
- Cost Effective

The Pulsar® IV Commercial Pool Water Sanitation System

Specifically designed for large pools and simplified operation and maintenance, the principal benefit of using the Pulsar IV System for big pools is easy to see... a remarkable difference in pool water clarity, color and sparkle. Using Pulsar eliminates the hazards of chlorine gas and liquid bleach, protects bathers, plaster and equipment and reduces chloramine odors dramatically. Easy to use and maintain, the Pulsar IV chlorinates, removes organics and metals, boosts hardness and shock treats...all in one simple process. With balanced pool water, The Pulsar IV System will give you cleaner, clearer water, less hassle and longer pool and equipment life.

The Pulsar IV System

- Feeds up to 360 lbs. of available chlorine per day
- Optimal chlorination and evacuation
- Operates as an independent loop from the pool system
- Complete system includes:
 - Pulsar IV Chlorinator
 - Pulsar 1 hp Recirculation Pump
 - 1.5" Venturi
 - Connections for standard installation

The Pulsar IV Chlorinator

Simple, Rugged, Easy to Use and Maintain

The NSF Listed Pulsar IV Chlorinator provides consistent, dependable pool water chlorination and is capable of very high chlorination rates using a unique spray concept that enhances your pool's filtration system and helps make your pool water sparkle. The Pulsar IV employs constant washdown feature and has a ramped bottom with a well agitator to aid complete evacuation. The Pulsar IV is designed for easy access to the internal components for simplified maintenance. A 1 horsepower pump provides suction through the venturi for optimal evacuation of the chlorinator.

Dimensions	Feeder width	38"	96.5 cm
	Feeder depth	33"	84 cm
	Feeder height	39"	99 cm
	Feeder weight (empty)	74 lbs	34 kg
	Tubing size (O.D.)	5/8"	19 mm

Capacity and Feed Rate

Capacity (Wt. of pellets)	200 lbs	90.9 kg
Feed-rate range (AvCl/day)	360 lbs	163.6 kg

Pulsar Plus Briquettes

Chemical Properties	Minimum	Maximum
